

## **HEC\_United Way Grant Announcement**

### **Health Education Council awarded United Way grant to fund Youth Led Entrepreneurial Opportunities project for third straight year.**

The Health Education Council (HEC) has been awarded a grant from United Way to help fund the Grant High School Youth Led Entrepreneurial Opportunities project (GEO). At the HEC, we are working with Grant High School students to develop their entrepreneurial spirit with projects like "Eat from the Garden," their salsa and pasta sauce business, where students develop the recipes, then market and sell their salsa and pasta sauce at local farmers' markets and food co-ops.

For more information, please visit <http://www.eatfromthegarden.org/>.
